June, 2008

WELCOME!

On behalf of the City of Auburn, we extend a warm invitation to the Auburn High School, Class of 1948 Alumni, as they visit Auburn for their 60th class reunion.

Auburn continues to improve as the "Home of the Classics". The Ford V-8 Museum recently started construction on a new museum to provide a home for another piece of valuable automotive history. We hope you will take an opportunity to re-visit some of our fine museums, which are sure to remind you of pleasant memories.

Rieke Park, on the former Auburn Airport site, is nearing completion, scheduled this fall. The Rieke Park Lodge has already hosted numerous meetings and graduation parties. A paved walking trail from North Van Buren Street ends at the north end of the property. Engineering is being completed to extend the trail south to North Street, and north to Betz Road.

Last summer, the city was host for 20 sculptures from the J. Seward Johnson Collection. During the summer of 2008, approximately 20 local artists will have their "Trompe L'Oeil" three dimensional art work on display around the Courthouse Square. Many residents commented that having the sculptures brought people back downtown, just like when they were growing up in Auburn. We hope this continues.

As Mayor, it's a pleasure for me to welcome the Auburn High School Class of 1948 to our beautiful historical city. We hope you enjoy the many amenities Auburn has to offer and best wishes for a successful reunion.

Sincerely,

Norman E. Yoder, Mayor

Gilbert A. Kellberg – Music
Guyneth Hewitt – Music
Mary C. Wood – Commercial
Clyde M. Gumpp - Commercial

REMEMBERING 1948

…IN THE NEWS- Inflation was 129%; peacetime draft reinstated; Berlin blockade and airlift; transistors were developed; Truman defeats Dewey; military racial segregation to end; Babe Ruth dies.
…NEW PRODUCTS- Dial soap; vegetable juice; Polaroid camera; Pepsi in a can.
…SPORTS- USA wins most medals in London Olympics; Satchel Paige joins Cleveland Indians; Indians win World Series; Philadelphia Eagles win NFL title game; first professional football game telecast.
…MOVIES- The Road to Rio; Abbott and Costello meet Frankenstein; The Treasure of the Sierra Madre; Key Largo; Romance on the High Seas.
…TV SHOWS- Kukla, Fran and Ollie; Texaco Star Theatre with Milton Berle.
…TOP MOVIE STARS- Bing Crosby, Betty Grable, Gary Cooper, Bob Hope, Jane Powell, Ingrid Bergman, Ann Blyth, Cary Grant.
…HIT SONGS- Buttons and Bows; Twelfth Street Rag; Manana; A Tree in the Meadow; Nature Boy; I'm Looking Over a Four Leaf Clover; You Can't Be True, Dear; Once in Love with Amy; Red Roses for a Blue Lady.
…RADIO SHOWS- Information Please; Land of the Lost; The Hour of Charm; Stop the Music.

(Source: Reminisce Magazine, May-June, 1998)

May 13, 2008

I have just read through all of the letters from the 50th anniversary booklet Fred put together. Our class is an interesting bunch of people!

I also looked through the 1948 Follies. I had forgotten that I was active in so many things. GAA - I particularly loved volleyball and was a darned good server! My favorite activity was singing in a special chorus. I had also forgotten that I won a couple of blue ribbons for essays I had written. I still love to write, and although I don't sing much anymore, I still enjoy playing the piano and the organ.

Who was it said that you can't go home again? Well, no, you can't; but you can move back to your home town, which I did over two years ago. Hopefully, this will be my last move. Auburn has changed so much since 1948 - not all for the good, but good things happen here nevertheless.

My family continues to grow, with great-grandson Paul, who is about a year and a half and the apple of my eye; and soon I'll have a step-great-granddaughter, who just turned five.

I was thinking about our high school years and some of the school friends, and so many memories center on food! Here are some: Fred, I would bet any money that you don't remember when I baby-sat Kilgallon's children (K's were in Chicago, seeing her brother off to the army). You came down the alley eating a piece of toast and peanut butter. I immediately went into the house and made the same for me. Who ever heard of putting peanut butter on toast? Loved it! I went to Alice Kiefer's house for lunch one day, and her mother had fried potatoes with green peppers (we called them mangoes then) cut up and fried with the potatoes. Well, whoever heard of that??? Again - it was delicious. I still fix them that way. Went to dinner (still called 'supper' in the Graham household) at Betsy Smith's house. Her mother made sweet potato casserole with Marshmallows on top! I was in heaven, went home and told my mother to do that from now on! Actually, I think she did. OK, one last one. Sue Alexander. Stayed overnight and Sue's mother fixed broiled grapefruit for breakfast. I looked at it askance (love that word) but ate it and, of course, loved it. Keeping with the food theme, I have never tasted a hamburger as good as the ones we got at Russells, or the toasted corned beef sandwiches at Stamens. OK, now, this is just making me hungry.

It will be good to see everyone. . . It's like Dick Cavett says, "I feel young, it's just that something has gone terribly wrong with my body!" My hair is gray, I have a definite double chin, and in the eye area - well, let's not even go there. My back hurts, my right thumb is arthritic from time to time, but my feet and legs work, all my senses work, my brain is fairly active, so I won't complain. I'm just thankful for who I am and what I can do - and for good memories from 60 years ago.

Dorothy Graham

Dorothy

Hi from Arizona. I can't believe its 60 years ago that we were saying goodbye to carefree times and "Hello new world".

After graduation I headed north for 4 years to Albion College for fall through spring and spent the summers on Lake Michigan counseling at a camp.

Next I headed west to Tucson, Arizona and spent 3 years teaching, exploring this great state and making lifelong friends.

After a summer in Honolulu, I taught in San Bernardino, California, loved the job but longed for Arizona.

Returned to Phoenix and here I have stayed. I taught primary grade kids and some speech correction.

After I married, Mom & Dad moved out here to grandparent and other family frequently came to visit. I haven't been back East for 2 or 3 years (usually went to see Bud in Indianapolis, then on to Erie, Pennsylvania for visit's with Reg's family).

We are both retired and enjoying our updated pool, the Arizona Diamondbacks baseball team and moaning the demise of our Phoenix Suns basketball season.

If you pass through give us a call – we are in the "book". Oh, no one has called me Helen since 1st grade except Maudie (I've been Betsy to everyone except Uncle Sam).

Warm wishes (It's only 90 degrees, 10% humidity and great!),

Betsy (Smith) Swartz

Greetings to the AH.S. Class of 1948:

One high school memory was the surprise in receiving an "A" grade on my six weeks grade card from Maude Armstrong. I also enjoyed all the sports and the track team winning the Kokomo Relays.

I have lived most of my life in DeKalb County. The first 39 years were in Auburn. The next five years were in Fort Wayne, but I commuted to work in Auburn. While in Fort Wayne I met and married Eileen Carboni. My parents and I bought 100 acres of land in DeKalb County in 1964 before I-69 was built. In 1974 we built a home on this land southwest of Auburn on County Road 11-A. After 27 years, the land was sold to the Kruse International Auction Park so they could expand their facilities for the World War II Museum. My new home is on County Road 427 (U.S. 27 during our high school days) between Auburn and Waterloo.

I retired in 1990 from Dana Corporation after 32 years. This allowed me to spend more time on my hobby. I have always been interested in the mechanics of automobiles. Since moving from Fort Wayne to the Auburn area, I have collected several Chrysler automobiles. My hobby is to restore some of the older cars and to drive them. My favorite cars are the Chrysler Imperials. At one time I owned seven Imperials. At this time I own only a 1963, a 1968 convertible, and two 1981 models; as well as a 1966 Dodge Charger and a 1948 DeSoto. In the past few years one Imperial has been sold and one has been donated to the NATMUS (National Automobile and Truck Museum) in Auburn at the site of the Auburn Cord Duesenberg Museum.

Eileen and I traveled over much of the United States to attend car shows and national meetings of the Walter P. Chrysler Auto Club and other car clubs. Many of the participants of these car shows became friends who we looked forward to greeting each year. Eileen passed away in January, 1997. We were married 26 years.

I now have a full blooded cocker spaniel named Buffy. Previously, I had a cat named Pixie, who died in 2000, at the age of 24, a very old age for a cat.

In the fall of 2001, I was introduced to Doris Haupert, of Leo, Indiana. She has been a friend and companion and may accompany me to the reunion this year.

Wayne E. Boyd

Congratulations to all—and thank you to our wonderful committee! 60 years!

Thank you for including me as a classmate. Auburn is still "home" and long-time friends are never forgotten. Although my memories go back to 1935 rather than 1945, I didn't graduate with you! We moved to Indianapolis in 1947; I graduated from Broadripple H.S. in 1948.

Then I endeared myself at three colleges: Butler University, Ball State and Union College in Kentucky where I met a Massachusetts native and married him in May 1953. After he received his master's degree from Boston University he taught English at the high school in Needham, MA for 31 years.

We lived in an old farmhouse in Boxborough, MA. We had 2 sons who still live in MA. I enjoyed gardening, birding and reading. My mother lived with us from 1967 until her death in 1989.

In 1979 I started part-time work at the Boxborough Library. I still work there 20 hours a week.

My husband died in 1997; we sold the farmhouse and I now live in a small house in Lunenburg, MA.

Time flies! May it be rich and joyful for all of you!

Ruth Wynne Hamilton

Greetings to the Class of 1948:

Most of my memories of A.H.S. concern athletics. However, my eternal gratitude goes to much maligned Maude Armstrong. If not for her, I would never have survived in college.

Beginning in the 5th grade, I wanted to be another "Zeke" Young - coaching and teaching physical education. The only difference was the coaching would be in basketball instead of football.

At Ball State, I was disappointed in Physical Education classes from the beginning. Most classes were taught by female teachers. Regardless of the course title we were going to be dancing. Have you ever tried dancing in a swimming pool?

After sophomore year the Korean Conflict broke out. Upon being notified my draft number was coming up, I left school and joined the U.S. Navy. If I had to go, I wanted to see the world. After Great Lakes boot camp, the Navy sent me to school for twelve weeks at Naval Base, Norfolk, Va. While there I made the Naval Base basketball team. After hitting a last second 55 foot shot with no time left to win a game against our rivals in the 5th Naval District Tourney, the Base C.O. (from South Bend, IN) arranged my duty at the Naval Base Discharge Office. It was the best possible duty - playing basketball in winter and softball in summer. We played small college teams as well as other service teams in Virginia and North Carolina.

While in the Navy, I was fortunate to meet and marry Violet Derby, from New York, probably the only girl in the world who could put up with me for a lifetime. After discharge we returned to Ball State where we both attended school. After graduation, we spent one year at Metz H.S. and 13 at Hamilton Community Schools. After 15 months getting a doctorate degree at Indiana University, we went to Crete-Monee School District, a Chicago suburb, for the final 20 years before retirement in 1991.

My life was spent in public school education as a teacher of history, government, driver education plus as basketball, baseball, and softball coach, athletic director, football official, department chairman, high school principal, assistant superintendent, superintendent and was twice elected to serve N.E. Indiana on the Indiana High School Athletic Association's Athletic Council. It would appear they kept looking for a job I could do successfully.

We moved back to Auburn in 1995. Vi and I have three sons and four granddaughters. All still live in the Chicago area. All things considered, it has been a wonderful life.

Auburn High School and Beyond as Remembered
by Joan (Jody) Garns Butler Koehl

High school days began for me with a too-tight home perm and a blotchy face from having poison ivy over a summer tan, but I remember the new brown and white Girl Scout shoes that took the edge off my pain.

Teachers I remember especially are Ms. Berkypile who taught art and let us go uptown during the fair to sketch as we sat near the stone lions on the Court House square; Miss Dawson with her infinite patience with our Latin classes; and Mr. Showalter who patrolled the corridors between classes, leaving his Safety Class students free to tease the girls as we gathered for class in those wooden chairs with writing arms on them.

Fun times like basketball games with Paul King and Joan Mochamer leading cheers, football games with crisp fall weather, track and field after school at Carr Field by the Park remain in my memory.

I remember walking home for lunch, about a mile each way to eat Mother's steaming vegetable soup, then back quickly in time to sit on the curbing outside the school to socialize (boy watch).

The Gita Sereny Club which formed to encourage correspondence between American students and students in Austria and other countries after WWII. A play in which I was an old maid school teacher. Volley ball in the little gym with GAA.

From spring of my sophomore year, all events are seen through rose colored glasses when Phil Butler, a senior, began walking me home from the Canteen at the Y. I remember the violets as we walked by Mrs. Bowers' home, and the fragrance of spring lilacs; the Hi-Y formal, winter picnics at Pokagon, studying at the Library with Phil, then drinking thick milkshakes at Stamen's Drug Store, before Phil left for I.U.Extension in Fort Wayne. I went off to Hanover College for one year after my graduation in 1948.

We married in 1950 when he was nearly finished with Law School. Moving 13 times in several years included a year in Japan for us with Phil in the JAG department of the Air Force. We chose to settle in Auburn where Phil eventually practiced 26 years as a DeKalb County attorney, and 7 years with Peoples Federal Savings Bank developing a Trust Department for them.

We adopted two beautiful children, Mary and Brian in 1957 and 1960, living on Clark Street and on Morningstar Road in Auburn. After they graduated from DeKalb Central High School, we moved to north of Fort Wayne when I enrolled at St. Francis College to finish a degree program begun in 1948. Moving still closer to Fort Wayne, we lived in a villa for 6 years. We traveled abroad a number of times and loved it.

After we experienced 47 years of friendship and love, Phil was diagnosed with cancer in 1992 and died September 1993. I lived alone for 9 years, then met and married Tom Koehl, a man in our St. Vincent's choir on October 20, 2002. Between us we have 17 children and 48 grandchildren. We lived in my villa for 3 years while he remodeled his home on Auburn Road, and we moved there in 2005. Tom had added a large family room and a three-car garage after his wife died in 1995. He further remodeled the house to fit our needs, changing walls and making wood paneling and built-in cabinets. Tom works for his sons who have a booming business making golf carts go faster.

Birthdays, First Communions, graduations, anniversaries, Grandparents' Days, weddings, showers, and Baptisms keep us hopping all year long. God is good.

A FEW WORDS FROM JACK E. THOMAS

Sheesh!!! I almost flunked Ms. Duguid's composition class and Ms. Armstrong's English and I'm expected to write a few words about life after graduation. Well let's see what I can come up with.

So many fond memories of high school, football, dances at the "Y", chasing girls, president of AAA, Mr. Schooley's chemistry class, trying to hang from the gym rafters with my fear of heights. Never did make it up!

Left for Purdue the fall of '48 for 1½ years. Quit and went to work at Lutheran Hospital where I met the girl of my dreams, Susan a student nurse. We married in 1952 and moved to Auburn. I was fortunate enough to get into Borg Warner's Metallurgy Lab where I worked for 15 years. Then wanderlust hit me and we moved to Tennessee in 1967to set up a brand new Heat Treat facility. We lived in Tennessee for 7 years and in 1974 was offered a job in Charlotte, NC again to set up a new Heat Treat operation at a small, family owned plant. We moved to Fort Mill, SC which is just a few miles south of Charlotte and I worked at Terrell Gear Drive for 17 years, or until they closed the plant.

Not quite ready to retire, I was offered a job in Lufkin, Texas to again set up a new Heat Treat facility. We lived in Texas for 22 months and then back to Fort Mill and retirement.

The 60 years have gone flying by!!! I'm in pretty good health, just celebrated our 56th wedding anniversary, have 4 great kids and 2 wonderful grandsons and loads of Auburn memories. The GOOD LORD has blest us so generously for which I thank Him every day. I wish I could be with you at this time but Susan is unable to travel that distance but we will be with you in spirit. ***HAVE A GREAT TIME!!!***

It amazes me how memories from so long ago do not fade. There were many good times at Auburn High School. I will never forget our great basketball team and how proud we all were. Of course we still remember our friends and teachers. We were very lucky to have such good teachers. A good education goes a long way. This year I have sad news. My beloved Dan died last November. I have moved to Helena, Montana, to be near my daughter and son-in-law. I have a son and daughter both living near Houston, Texas. (That's where the good jobs for them are.) One son-in-law works for NASA and the other for Chevron Oil. Of course Texas is where my grandchildren are, but living there would be too much of a change for this old lady. I do love Montana with all its open spaces and mountains. Dan and I shared many good memories to sustain me. Dan worked as an engineer for the Bureau of Reclamation. After retiring he worked a year in Cairo, Egypt, and then for a few months each year with FEMA. We traveled to different disaster areas around the country. I am retired from counseling but hope to do some painting one of these days.

Pat Seymour Evans

Susie Weathers and I used to sit on my front porch and talk about the days after college when we would move to a big city and become sophisticated. After Jim and I married, we lived in Madison, Wi., New York City, Chicago (twice) Kansas City, Dallas and Columbus, Ohio. I never became sophisticated!

Our family is all Big Ten. Jim from Purdue and Ohio State (graduate work), Betty from Indiana, our daughters Marianne and Joan from Wisconsin, and our son-in-law from Illinois. We have a friendly rivalry, although our Wisconsin daughters usually win.

When Jim developed his PLS (neurological disease similar to ALS), we decided to downsize and move closer to our daughters. So my life came full circle as we moved back to a small town, Chatham, Il. It is about the size of Auburn. It is near Springfield, so we have the Symphony, summer theater and Broadway plays that show up several years later than their New York debuts.

I found out you can take the girl out of a small town, but you never take the small town of one's heritage out of the girl. Auburn was a great place to live and my childhood was truly pleasant. I treasure all my friendships and experiences at Auburn High School.

Betty Haggarty Spurrier

High School Memories – Thinking back to specific events during high school days requires that I make a decision as to what happened! Option 1 ~ everyone knows that I do have a photographic memory. The only problem is that I ran out of film shortly after birth. Option 2 ~ my forgettery is much better than my memory. TAKE YOUR CHOICE.

College – After high school, I went to the Purdue University Extension Center at Fort Wayne for one year. Then I attended the University of Michigan for three years. My course of study was forest management. At least I was successful in pulling the wool over the professors' eyes, and I have the sheep skin to prove it.

Military Service – After college Uncle Sam came calling and I spent a couple years with him in the Army. Most of my time was spent on Okinawa in a heavy mortar unit. At first I was a small arms artificer, then I was moved to the survey section eventually becoming the survey section chief. Just a side note, the last battle my older brother was in was the battle for Okinawa, and when I shipped over seas I was stationed on Okinawa.

Places we lived – After discharge from the Army, I moved very little; all of our time was spent in the Pacific Northwest. Other than for four years living at Halfway, Oregon we have lived in Washington, at a Forest Ranger Station between Forks and Port Angeles and then in the Tacoma area.

Family – We have one daughter, Juanita. She works for the American Heart Association, Pacific / Mountain Affiliate. She is the Senior Vice President for Advocacy, Communications and Health Initiatives. Juanita's birth was a true miracle. After she was born the lead doctor of the team of doctors involved said that medically her birth was still absolutely impossible.

Working Life – I hesitate to say that I had a working life. It has been too much fun and pleasurable to be considered work. My first ten years were with the U. S. Forest Service on the Sol Duc District of the Olympic National Forest and on the Pine District (where I was the Assistant District Ranger) of the Wallowa Whitman National Forest. After that I transferred to the Department of the Army at Fort Lewis. What does the Army do with foresters? Fort Lewis has about 50,000 acres of managed forest land. After a few years I was made the Chief Forester at Fort Lewis.

Hobbies – Since retirement in 1995, I have only one hobby; that is trying to keep out of mischief.

Personal Interests – I am active in our church; volunteering to help with the many different activities. I am also a Wellness Instructor at Franke Tobey Jones Retirement Estates. I currently teach classes for those in the Dementia Unit and in the Health Care Center. At times I fill in for one of the instructors in the Wellness Center.

Achievements – It looks like my major achievement in life has been to completely fill this sheet of paper.

Paul M. Carbaugh

Paul M. Carbaugh

1948 AUBURN HIGH SCHOOL - 60TH CLASS REUNION - June 28, 2008

I wonder if it is as hard for you as it is for me to accept being out of Auburn High School 60 years! Where did those years go???

After graduating in May of 1948, I moved to California in September of 48 and have lived in the Los Angeles area for most of those 60 years. I was married 49 years to my Dear precious Nat who passed away 7-½ years ago. I then sold our home in Beverly Hills where we had lived for 30 years and built a home 13 miles outside of Las Vegas in Henderson, Nevada. I have lived there part time for 7 years, spending two weeks there and two weeks at our place on the ocean in Marina Del Rey. I now have the Henderson home for sale as Mother Nature and Father Time gave me a message it was time to move back to LA to be nearer my son who is a physician in Santa Monica and my daughter who lives in Santa Barbara. And of course to be near my 6 grandchildren who range in age from 7 to 27. I made a wonderful new life for myself in Nevada and I absolutely love Las Vegas. It is one of the most exciting cities in the world and there is always something fun going on. I do not gamble at all but it is a fun place to live. I made wonderful new friends and created a whole new life for myself. I still go back one week a month until the house is sold and to catch up with my friends . After my house is sold, I will still go back frequently as I really do like living in Vegas.

I have had a fantastic life thanks to Dear Nat. He really taught me how to enjoy life and keep busy and involved with great things. We were fortunate to travel the world, and since it is so much more difficult to travel today, I make trips for special occasions like coming here for the reunion, and I will be going to Aspen, Colorado for a friends big birthday in July. I am very active socially here in LA with various charity groups . I volunteer at Cedars Sinai Medical Center in the Music for Healing program where I play piano 4 hours each Monday morning in the lobby of the hospital. I also make baby blankets for underprivileged babies which gives me a lot of satisfaction knowing some little baby will have a snuggly blanket.

I am now retired from real estate but I keep my Broker license active as it would be impossible to get now. I was very successful the 20 years I was active in real estate as I specialized in rest homes, assisted living centers and retirement homes. It was a specialty that came about by accident and turned out to be very lucrative. When my Dear Nat had to retire and went on dialysis, I retired from active real estate to concentrate on managing our own properties. A lot of the business acumen I learned in Mr. Gump's class I was able to apply in the real world, and tutored by my husband , I have become - and I say this with pride and confidence - a good business woman.

Living in California is a certain lifestyle that is sometimes joked about, but I do try to take care of my health. At least 5 times a week I walk a mile each morning around 6:30AM and swim 45 minutes each day. I eat organic foods as much as possible and try to eat as healthy as possible. I feel it pays off as I have many friends who do not follow such a regimen and they cannot keep up with me. Eighty is just around the corner and I truly do not feel that age.

It is strange how I still feel my roots are in Auburn after being away all these years. I remember fondly growing up there, working at Pennys after school and on Saturdays, dating Gene, going to the YMCA Canteen after the games with Max's band playing. So many wonderful memories ---- I do not see my grandchildren having the same carefree life I had --they are constantly being driven to one activity after another. I hope their memories will be as good. I really feel I had the best of times.

Thanks for getting us together again. Best wishes to everyone.

BARBARA DICKENSON WINTERS

March 20, 2008

Dale Billings Story

Birthplace, Harvard NE, Lived in Giltner, Murphy NE: Atlantic, Walnut IA: Auburn, Butler, Ft Wayne IN: Jacksonville NC; Ogden UT; Midland, Manistee MI; Antioch CA; Brazoria, TX.

Schools attended; Giltner, Murphy NE; Atlantic, Walnut IA; Auburn IN. Murphy, Atlantic and Walnut were one room school grade 1-8. Started the 7th grade in Auburn. Graduated from Molar Barber College, Chicago IL, June 1949; Tri State University, Angola IN March 1958, BS Chemical Engineering. High school had a lot of good memories, but the one that has stayed with me is from Skeet's class, "the stock market is a poker game if you don't have the money to lose stay out."

Service; USMC Sept 1950 to Sept 1953. Stationed at Camp LeJeune NC. Was a radio operator with 81mm mortar platoon and Naval & Air support team.

Family; Married Eva Moldovan, from Midland MI, on Jan 21, 1956 in Bryan OH. Have three sons Rick/Anita, Kim/Patricia, and Jeff/Beckey. Five grandchildren, Eric, Nick, Kevin, Taylor, Jacob. Taylor the only girl. We all live within a 100 miles of each other.

Work Life; While living in IA on the farm picked corn by hand, drove team of horses putting up hay, drove tractor cutting oats, milked cows and other chores around the farm. Carried newspapers while in school in Auburn. Barbered from 1949 to 1960 full and part time. 1958 worked for Weatherhead Corp, Ft Wayne, testing high-pressure industrial hoses. 1959 to Bowser Inc, Ft Wayne in the filter/separation jet fuel group. Installed the first units at O'Hare airport Chicago, IL. 1961 to Thickol Chemical, Brigham City UT. Worked in several areas building the 1st stage of the Minuteman Missile. Was assigned to lead a group when the glue joints in the aft closure failed, we solved problem in 4 weeks. Biggest accomplishment was solving why rocket oxidizer was exploding. 1964 to Dow Chemical, Freeport, TX, for 25.5 years.. Worked in the Chlorine-Caustic-Hydrogen units, managed several plants. Was transferred to Midland MI and Antioch CA to work on problem areas. Made several improvements, biggest was chlorine compressor control system, which eliminated chlorine gas releases. Retired Mar 1990. 1996-98 and 2006 helped my son Rick startup calcium chloride plants in Manistee MI and Gonzales LA. 2007-08 W Columbia Charter School, teaching 7th, 8th, grade science, 10th chemistry/physics, and 11th/12th grade chemistry. Hardest job I ever had.

Hobbies; We like to travel, been to every state except Hawaiian Islands. Taken 3 months trips to Alaska and Nova Scotia Areas. We go to the lake to water ski, sail, and Jet Ski. Still to a little snow skiing. Read a lot.

For my family being forced to leave NE due the depression and drought, we have been bless with a good life. Many of my experience with you all in high school started me on my way, even though I tried to end it all when I blew the hydrogen experiment in chemistry lab. I have seen and done many things, and God has blessed me in many ways.

All you English Majors, like I tell my daughter in law, don't correct my English until you know Chemistry like I do.

Bluefield, Virginia 24605
Phone: (540) 326-1315
Fax: (540) 326-6513
E-Mail: ezerice@citlink.net

I was born in Angola, Indiana 8-15-1930 to Parents Albert & Lola (Hobson) Rice. I moved to Auburn at age one (1) with my family.

Attended Harrison School, Grades 1 to 6

Attended Auburn Jr. High & Graduated from Auburn High School (1948).

Served in the Air Forces during Korean War. After discharge I went to work at Auburn Rubber Company as a Cost Accountant, moved with the Company to Deming, New Mexico in 1960. In 1963 took a position as Controller with General Instrument Company in Tazewell, Virginia and Darlington, South Carolina.

In 1971 I moved to Walled Lake, Michigan to rejoin my old Bosses from Auburn Rubber Co. Mr. Yoquelet and Mr. Littleton, who had started Gay Toys, Inc. which later became American Plastic Toys, Inc. I worked there for 23 years and retired in 1994 as Vice President and Treasurer.

In 1994 we moved to Bluefield, Virginia. I have been married to Zane Rice since 7-17-1971 and have three (3) sons. Thomas Rice in St. Louis, MO, Tim Rice in Fort Wayne, IN and Capt. B. Michael Thompson, USMC. (Deceased, killed on active duty). Two (2) Daughters, Johaunna Thornton lives in Vista, California and Sherry Winningham in Huntington, WV.

We have Seventeen (17) Grandchildren and Twelve and one on the way (12 ½) Great-Grandchildren.

My hobbies are Golf, Reading, Woodworking & Civic Volunteering.

Other than my Family the achievements that I am most proud of are:

The Golden Apple Award from the Walled Lake, Michigan School System for Volunteering and services to the Schools there.

I was awarded a "Special Tribute" from the State of Michigan as "Volunteer Leadership Award" recipient for 1994.

I was a member and President of the Auburn Jaycees in the 50"s and have been a member of Rotary since 1984. I have been President of the Rotary Clubs of both Walled Lake, MI and Bluefield, WV and was awarded the honor of being named a Paul Harris Fellow in both Clubs. I also served as District Treasurer for Rotary International for a period of one year.

Favorite School Memories: 1. Several of us 6th grade boys pushed a piano over on a teacher's leg. 2. I got smacked by "Dusty Rhodes" as we leaned out a window in Jr. High. 3. Two Senior boys, Dale Billings and Myself along with Freshman Carolyn Mitchell being elected Cheer Leaders.

JOAN(PALMER)PRESTON

I fondly remember the football and basketball games - marching with the band - the Proms and the friendships.
I married in 1952 and we moved around a bit - living in Crawfordsville,Ind.(Chuck attending Wabash College) Batesville,Ind.,Framingham and Holliston, Mass.,Indianapolis and Ft.Wayne, Ind., Schaumburg, Ill., and retired back in good old Auburn.
We were Snow-birds in the Villages, Fla. for 12 yrs. and moved permanently to Stonecrest on the golf oourse 3 yrs ago.
Chuck had a stroke in 2005 which has slowed our living a bit. He worked hard at Re-Hab and can play limited golf now.
I play 2 or 3 times a week and we enjoy going here and there in our golf carts. (My cart is a '53 Chevy).
We enjoy our three children, four grand-children, and five great-grand children whenever we can get together.
I would like to wish everyone "Happy and Healthy" years in our remaining days.

Jo Preston

Graduated (with the help of my wife-to-be) from Indiana University in 1952. ROTC provided a commission in the U.S.Army – served two years during the Korean conflict. Upon discharge (honorable) I took a job with Central Soya in their sales program. Married the former Anita Abbott in Martinsville, IN at Christmas time 1952.

John, Jr. was born at the Aberdeen Proving Grounds hospital in 1954 and we moved to Fort Wayne to live while I attended the Central Soya sales training school. We then moved to Petersburg, IN where we lived for one year. Next move was to West Lafayette, IN (poor territory) where we lived until returning to Auburn in 1956. Our daughter Becky, was born in 1956 at the old Souder Hospital, which was recently raised.

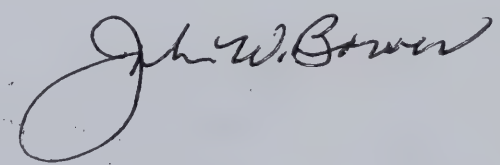
Spent twenty years with Messinger Corporation. Seventeen years with Stump Printing in South Whitley, IN in marketing and advertising.

In early 1991, Anita and I formed our own small jobbing business operating from our home. We were very fortunate in maintaining a nice volume of business with friends and past contacts.

2003 was a sad year for us. I had quadruple bypass surgery in April and Anita died on May 23rd of that year – we had celebrated our 50th wedding anniversary in December of 2002 at our daughters' home in Portage, MI with family present, including our seven grandchildren. I now have a great grandson, born in May 2007

Over the years Anita and I had developed a friendship with Jack and Esther Gates of Columbia City, IN. Esther lost Jack in 1996 – after Anita's death, Esther and I renewed our friendship and in July 2004 we were married in Columbia City in the garden of her daughters' home with all our children, grandchildren and great grandchildren present. Esther sold her home in Columbia City, I sold my home on Clark Street. We then combined our resources to build a villa at Bridgewater. We continue with the jobbing business – don't play golf – but do hunt for golf balls and then give them away. We also enjoy spending some time in Florida during the winter months.

I've rambled a long time on this thing. I apologize. Esther and I certainly enjoy this honor of having you celebrate our 60th AHS reunion in our home. We wish each and everyone of you the very best. MAY GOD BLESS EACH OF YOU!!



Fred Butler
221 Avenida Princesa
San Clemente, CA 92672

Dear Fred,

Dean Hardy here.

I finally got tired of traveling the world and sort of turned my interest in to the Environment and also the fact that the food supply right now is not even fit to eat. The soil has been raped for so many years that you can't hardly grow food fit to eat anywhere in the world. The Earth has had everything 'good' taken away from it and hasn't ever been replenished. We're trying to find ways of replenishing the nutrients in the soil to support good life force in the food we eat.

I'm trying to make sure that my grandchildren are able to eat the food that the Earth produces. I have five grand children and three great-grandchildren,

I'm tired... In May of 2000, I had my first stroke and in November, 2004, I had a second stroke. Then, in July 2006, I had to have open heart surgery. I feel most of this is food related, and I want to try to make the environment better for my family and the rest of the world.

Yours truly,

Dean L Hardy

Dean Hardy

I've heard the old clichés: Life is short. Time flies. Believe it! It can't have been 60 years since that graduation day in 1948. I left Auburn that summer and married Bob Silk, a GE engineer, in 1951. I lost him in 2006 after 55 short years,

Fred's letter asked for our memories of AHS. Of my 78 years, I spent 4 short years in Auburn attending high school. So many years have past, and my memories of that short time have been clouded with a lifetime of raising 5 children and all that goes into a marriage of 55 years.

I remember a crammed locker and rushing through the halls to get to class. I learned to keep one hand on the banister as I slid down the stairs from the second floor, my feet barely touching the steps. I remember only two of my teachers..Maude Armstrong who terrified me and Mr. LaForge who was adored by half the girls in the class. Did we go to the square after class and stop in at a drug store for cokes? Or am I getting confused with some TV show I've watched. And speaking of the square, how about the fair that came every year? I remember that I loved choir and hated gym. I remember going to the "Y" after the basketball games. And I do remember that we had an awesome basketball team! I tell my children that AHS went to state in '48. But I honestly can't remember if we won.

Life was a lot simpler then. We didn't have computers, laser printers or spell check. We typed on manual Underwoods and had to know how to spell. There was no TV. We never heard of DVD's, cell phones or text messages. Cocain amd meth were not household words. The moon was romantic and unattainable. Children could walk to school. Marriage was between a man and a woman. And when our country went to war, we got in, won it and got out.

And speaking of time flying, where have the last 10 years gone since our last reunion? What will the next 10 years bring? Or even the next 60?

Barbara (Lewis) Silk

April 30, 2008

TO THE GREAT CLASS OF '48 -

WOW! Remember back sixty years - that is asking a lot of a 78 year old. However, once I gave it a try there were so many great and back then exciting times. I guess the best memories were the Red Devils basketball games (remember the year we went to the State finals?) and the Friday night football then the dances at the Y Canteen after. Remember signing our Annuals each spring on the front wall? Before writing I went back and re-read mine - great stuff. Other times I really enjoyed were the spring band concerts and marching with the band, especially at the DeKalb County Fall Fair. I remember some high school courses were an "UGH" like Economics and Latin but looked forward to Business and Speech/Drama

Now fast forward to the 21st Century. Left high school and immediately joined Dana Corp. as a timekeeper. Married in 1951, had a beautiful daughter in 1953, divorced in '54, was transferred to Dana Canada in '55. Then I remarried in 1958 to the love of my life, Ron, who died in 1993. We had both just retired.

So for the last fifteen years I have been travelling Canada, the U.S., Europe and Asia. This fall I'm off to Russia and then a month in Tuscany. Golf and charity work keep me busy, especially driving and emergencies for the Red Cross, and my two grandchildren, Topher and Jenna.

Pompano Beach, Florida is my winter home because the Canadian winters are brutal, but this area in Niagara is beautiful in the summer.

Oh yes - one last bit of info. On June 1, 2007 I passed the test to become a Canadian citizen and now have dual citizenship. I'm very proud of both countries.

I do hope my classmates have enjoyed these last sixty years as much as I have --- and please dear God, give us many more.

It will be wonderful to see all of you again.

Pat (White) Reid

My life began in Auburn, one home town that's worth a thousand memories. I had wonderful Auburnite parents and love my brother, Steve. Mother graduated from Auburn High School in 1922. Mother and Dad were married in Auburn. I treasure the many life-long friendships that started on Midway Drive, and continued during schooling at Riley, Harrison, Jr. High and Auburn High School. .

Ah, AHS! Some standout teachers and memories: "Zeke" Young, Ms. Armstrong, Ms. Dawson, Mr. Weathers, Mr. Schooley, and Principal Miller; football games and three undefeated seasons; any win over Garrett; girl friend Jo; playing Henry Aldrich in the Jr/Sr play. Off campus- Bishops; the YMCA; Mrs. Holdeman and the Teen Canteen; movies at the Golden State.

The backdrop to our high school years was WWII. The draft, gas and food stamps; rationing; military victories we could understand; War Bonds; blackout curtains; Gold Star mothers; civilian defense: these events have been stories to tell and retell to our children and grandchildren.

I went to Los Angeles after graduation and attended USC majoring in business and advertising. Three key things happened here:
1) Football was my sport until injured my junior year. (2) I joined Air Force ROTC. After graduation in 1952, I served at March Air Force Base, Riverside, CA. (3) Betsy and I met during our junior year. We married after graduation.

Children, Steven, Ellen, Keith, and Anne, were born in Riverside, We lived there 40 years. Betsy taught school for a short time. My first 20 years of working focused on advertising and marketing. We operated Butler Advertising for another 20 years. After selling the business,we retired to live in San Clemente, CA in 1991.

Our kids and their families are scattered around southern Calif. and close enough for lots of family fun. We have 6 grandchildren. The two youngest are now in high school. None married, but the year isn't over.

Family camping has been a favorite activity. Travel has taken us to Alaska, Hawaii, England, Wales, Netherlands and Panama Canal. Last year we enjoyed the Mississippi River BargeCruse from St. Louis to New Orleans. We visited Joe and Rea Kleeman and Betty Haggerty Spurrier on this trip.

Community service, church volunteer, and USC alumni events keep me busy. I play tennis, bike, and go to the gym. Betsy is a long time genealogist and active member of DAR. She is an avid reader and knits blankets for veterans. Her exercise is walking. We are both cancer survivors. We treasure the beach lifestyle, ocean, and the Pacific coastal climate. Our favorite fall activity is attending USC home football games.

Yes, God has blessed us and we are so very grateful.

Welcome, Red Devils. Enjoy the party!

Fred Butler

I Can't believe it has been 60 years since we graduated. Time flies, doesn't it? They call it the golden years, but they sure are rusty!!

Right after graduation I went to work in the office of the Auburn Rubber Co. I was executive secretary to the President and Vice President/Treasurer. In 1960 they moved the plant to Deming, N. M.

On June 28, 1952 I married Aeng Palumbo. In 1961 we adopted our son, Michael. Then in 1963 we adopted our daughter, Beth. Unfortunately, in December, 1970, Aeng passed away.

I went back to work in November, 1978, at Tramp in Auburn. I was Administrative Asst. to the Plant Manager and Human Resource Mgr. until March, 1995.

I then went to work at the Auburn License Branch until August, 2005.

I have thoroughly enjoyed working with some of our classmates on all of our Class reunions. Hope to see all of you at our 60th.

Sincerely,
Barbara (Foster) Palumbo

After high school I attended S.U. for 2 years, then I worked at Messenger Corp as a secretary. In 1952 I married Neil Gonreth whom I had met at S.U. After 3½ yrs in the Air Force we lived in Kalama where his family had a business. He died in 1978 and I've been a "merry widow" since then. Right! I have 2 sons, a daughter, six grandchildren + 4 great grandsons. In 1990 I moved to Carmel and worked 6½ years. I now work part time at a Hallmark store near me. How lucky we were to have lived when we did + attend high school in the 40's. Such a wonderful era + unforgettable memories to last a lifetime. I loved basketball + football games, the sectionals, movies + ice cream or drinks at Bishops or Lamoisers. Maudie's English class where good English was drilled into us. I must admit the Teen Canteen, Bledsoes + Coldsprings were very important to me. My life was complete when I hung out at the Y + someone yelled "Anyone want a ride to Bledsoes?"

Barbara Gonser Gonreath

Class of 1948

I enjoyed School at Auburn High. It was a struggle at times, but I made it through the four years. I know I made some lasting friends and enjoy seeing them every time I get back to Auburn.

I served my country for twenty three years in the Military, Four years in the Navy during The Korean Conflict and nineteen years in the Air Force. I was a Flight Engineer on the C-130, which I served two separate tours in Vietnam. I flew all over Europe and the Far East. I was in about thirty-five countries during my military service. Retired in March of 1977 from the military. Worked in construction for fifteen years before completely taking Full Retirement.

I enjoy my wife Lilo and four children Ramon, Joan, Larry, and Robin, and their families. I have four grandchildren and two great grandchildren.

I enjoy playing golf and watching sports on TV.

Richard (Dick) Blevins

To the Class of "48"

Writing this and remembering back 50 years, I find myself thinking of the old school as it was, classes and the teachers - Auburn as it was - the canteen at the "Y" - Bishops, Martha's popcorn, Landys, etc. Remember the places we "Hung out"? Coldsprings, the "Hill" at Bledsoes, the Sweet Shop in Kendallville, the trips to Hicksville to the "chrystal" for some beer. I know most of us have memories of these things. Gone now forever but not forgotten.

Back in High School I considered Engineering as a career. A couple of "doc" Roses's classes in math changed my thinking. Business - where 2 plus 2 equals 4 and the debits equal credits. That was for me. After discharge from the Air Force I signed on with General Electric in Ft. Wayne as a "pencil pushing bean counter". Several years later I was designing systems and programming business applications for our first computer. For the next thirtysome years this was my forte. I can honestly say I enjoyed (almost) every day of it.

Got married in 1960. Have a son and daughter and two granddaughters. Got un-married in 1971 and decided to stay that way.

Things were great until 1988. Company was restructured and eliminated our Department. All my "stuff" was transferred to Plainville, CT. Management said, "do you want to go" and I said, "hell no". I grabbed the pro-offered "Golden Parachute" and bailed out.

Now I am just another ROF, doing what I want, when I want, and enjoying every minute of it.

Sincerely

Harold Carmer

2008. 60 years. Long time. I am still retired and single. ~~I read a lot, follow bears, cubs,~~ Notre Dame football & IU basketball. Watch IRL & NASCAR. Attend some with my son when we can get tickets. I enjoy most my son & daughter and kids are still in Auburn. They usually come for dinner a couple of times a week. They say they like my cooking. I think they just want a free meal. Bye for now.
